

# WHY USE AN AIR CURTAIN?

COMMERCIAL & INDUSTRIAL AIR CURTAINS FROM POWERED AIRE

- ▶ **INCREASED BUILDING SPACE** - Beginning in 2019, ASHRAE Standard 90.1 approved the usage of air curtains as an exception to vestibules when & where certain criteria are met
- ▶ **PROMOTES SAFETY** - Full visibility increases safety and helps prevent collisions
- ▶ **ENERGY SAVINGS**
  - Proven to reduce the energy loss from conditioned space
  - Reduces load on HVAC systems
- ▶ **INSECT CONTROL** - Prevent flying insects from entering through entry ways, docks, internal doors, garage doors, and other openings
- ▶ **INCREASED CUSTOMER COMFORT**
  - Open door effect – people will come in an open door
  - Patrons in clean, comfortable, reduced-touch environments convert to buyers
- ▶ **IMPROVE AIR QUALITY** - Promote healthy environments by blocking contaminants including Insects, Smoke, Dust, Dirt, Emissions, Temperature, and Fumes
- ▶ **TEMPERATURE, DUST, EXHAUST & DEBRIS SEPARATION** - Block unwanted outside elements from entering through open doors
- ▶ **POWERED AIRE ADVANTAGE:**
  - Quiet and uniform performance
  - Stainless Steel Construction
  - Superior sales and support

QUICK  
PAYBACK

**AIR CURTAINS WHEN PROPERLY INSTALLED AND OPERATED CAN PAY FOR THEMSELVES IN LESS THAN TWO YEARS AND ENERGY SAVINGS CAN EXCEED \$4,000**
