

# AIR CURTAIN FINISH OPTIONS

**Brushed Stainless Steel**

**Gloss White**

**Matte Black**

**Mirrored Stainless**

Standard on Powered Aire Air Curtains is a brushed, 304 grade Stainless Steel that is known for its durability and natural resistance to corrosion. It's also easily cleaned and sanitized. The #3 finish provides a desired balance of "polish to matte" so that the Air Curtain reflects its surroundings in a subtle manner.

**A steam-heated ETA Air Curtain in Stainless Steel**

**Matte Black**

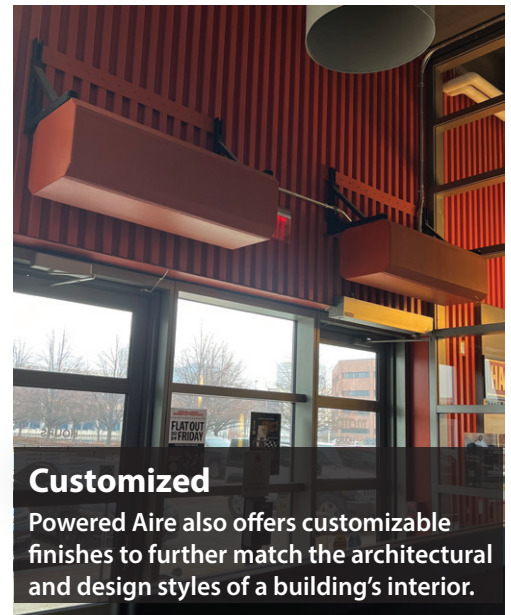

**Mirrored**

**Gloss White**

**Stainless Steel**

**Customized**

Powered Aire also offers customizable finishes to further match the architectural and design styles of a building's interior.

Powered Aire's Architectural Air Curtains (EVE, ETA and CHA) are available in Stainless Steel, Matte Black, Gloss White, Mirrored and a variety of Powder Coat colors. All commercial and industrial units are available in Stainless Steel only. Exceptions and custom units can be made. Please contact your sales manager for additional information.
