

EVE123

WALL MOUNTING PLATE FOR EVE MODELS

QUICK AND EASY INSTALLATION

Step 1

3/8" mounting bolts (supplied) are threaded into the holes located in all four corners of the back side of the air curtain, leaving 1/2" of the bolts exposed.

Step 2

Universal mounting slots are used to lag the bracket to the wall (bolts by others).

Step 3

- A** The air curtain is then lifted onto the bracket so that the exposed bolt heads slip down into the notches at the top and bottom of both ends of the bracket.
- B** The four bolts are tightened in place so that the air curtain fits snugly against the bracket.
- C** The installation is complete.

Compatible with Powered Aire Model EVE air Curtains
