

XPA

The XPA model is recommended for X-tremely high doors of up to 50 feet high. The XPA has top and bottom access panels to replace or service motors or blowers without lowering entire unit or bottom half of unit.

AT A GLANCE

Single Incremental Widths

6' to 30'

Max Installation Height

50'

Heavy Duty Motors

20 HP

KEY DESIGN FEATURES

- All weight bearing structural support is made of formed 11-gauge stainless steel and galvanized steel. Outer casing is constructed of 16-gauge stainless steel.
- Heavy duty 20 HP Total Enclosed Aire Over (TEAO) motors at 1175 rpm each, 50/60 Hz cycle. Single speed.
- Galvanized fans.
- Access panels for inspection, cleaning or removal of motor blower assembly, without having to lower the unit.
- High efficiency discharge plenum with directional air foil vane factory set to facilitate deflection of air stream +/- 20°.
- Includes NEMA 12 control panel with magnetic motor starter, overload relays and control transformer.
- Motors are controlled by soft-starters.

RECOMMENDED CONTROLS

- Panel mounted HAND / OFF / AUTO switch
- Magnetic door switch for activation
